

DEGREASER – ULTRA ENGINE CLEANER

Description

TORQ ULTRA ENGINE CLEANER is a controlled-drying, solvent based, water-washable degreasing fluid designed for most industrial and automotive applications.

Application

- TORQ ULTRA ENGINE CLEANER is a premium solvent based degreasing fluid designed to clean and degrease oil and contaminants from all types of engines, machinery and parts.
- It can be applied by brush, spray, dipping or other methods and after a few minutes the part can be washed with water leaving a clean surface which dries easily.
- Apply TORQ ULTRA ENGINE CLEANER to area. Leave and agitate for five minutes.

Health, Safety & Environment

- TORQ ULTRA ENGINE CLEANER is unlikely to present any health or safety hazard when correctly applied in the recommended applications.
- Avoid contact with skin and eyes, wash immediately with soap and water if contact occurs.
- Avoid disposing the flushing's into natural waterways.

Benefits

- Consistent performance in safety due to its high flash point and low volatility solvent.
- Powerful solvent action – readily dissolves and cleans oil or grease deposits.
- Minimal evaporation loss.
- Maximum efficiency due to controlled drying.
- Easily removed by water wash.
- Can be used with hard and soft water.

PRODUCT CHARECTERISTICS

PROPERTIES	UNITS	VALUE	TEST METHOD
FLASH POINT	°C	65	ASTM D92
EMULSION STABILITY IN HARD WATER	°C	60 minutes	IN-HOUSE
EMULSION STABILITY IN SOFT WATER		60 minutes	IN-HOUSE
DENSITY AT 20°C		0.820	ASTM D4052
APPEARANCE		blue	VISIBILITY
